Our Focus

We Serve Better

Needle Valve

Our company is reputed manufacturer of **Needle Valves**, manufactured from quality raw materials. We are also indulged in manufacturing Ball Valves, Gate Valves and Globe Valves. We offer diverse line of High Pressure Needle Valves made of brass, electroless nickel plated brass & plastic. Needle Valves are highly appreciated for general applications or in process plant, instrumentation, oil and gas production, etc. Further, these needle valves are an ideal option for isolating or throttling applications. Our distribution network is not only limited to domestic market but we are also exporting to Asian, African and Gulf countries.

We Serve Better

Needle Valve Manufacturer

We are prominent **Manufacturer of Needle valves** in Indian and international market. Our Valves play a vital role in regulating the amount of a substance unconfined by flow, pressure and direction. These are specifically used where in fine control of flow or pressure is required. Due to easy operation and varied use it is highly demanded by instrument companies for critical application.

Features

- Long functional life
- Easy operation
- Abrasion & corrosion resistant

We Serve Better

Instrument Needle Valve

Our company is a chief manufacturer of Instrument Needle Valves suitable for instrumentation and process lines. It allows precise regulation of flow. These are accessible in a wide range of materials and pressure ratings with their different configurations. **Instrument Needle Valves** finds application in various industries worldwide.

Features

- Heavy Duty Body
- Maximum Working Pressure
- Compression End Needle Valve

Needle Valve in India

Since the establishment, we are affianced as a manufacturer and exporter of Needle Valves and High Pressure Needle Valves. We assure 100% pressure test for all our needle valves and than after it is supplied to the clients. Needle Valves are manufactured for positive leak tight shutoff and regulation of flow during process applications. With the help of skilled professionals we are counted as an efficient **Needle Valves Supplier** in India and across overseas.

Features

- Manufactured from High quality material
- Rugged design
- Easy to install
